

Santiago, December 2020

H.E. Martin Moshisho
Deputy Governor
COUNTY GOVERNMENT OF KAJIADO

Fr. Alejandro Ruiz fdp.
Director
ORIONE COMMUNITY TRAINING CENTER

Dear all,

Today, December 3, is the international day of persons with disabilities, commemorated around the world.

And what better occasion than this to remember the Orione Community Training Center, an example for Chile and the world, for its generous work and leadership in care, attention and rehabilitation, something that many countries must learn from.

Many kilometers separate us, but from this long and narrow country in South America, I want to send you a very affectionate greeting. Especially to Father Alejandro Ruiz, for his constant willingness and selfless work for those who need it most. A mission that he, like all those who accompany him, carry out with so much love.

Let us take advantage of this day to reflect and commit ourselves. For inclusion to be effective, we must all get involved and work together in a cultural change, eliminating prejudices and barriers, to build a society that truly respects and values people with disabilities.

CECILIA MOREL MONTES
First Lady of Chile
